Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

Upon reconsideration of the response filed by applicants on September 19, 2005 and the interview of October 27, 2005 during the telephonic discussion with Mr. Kenneth Crimaldi that the only pending rejection in the application was a provisional obviousness double patenting over claims 1-10 of Application No. 10.811,008; which to date has not been assigned or issued as a patent the examiner is withdrawing the provisional rejection over 10/811,008 and permitting the application to issue as a patent as provided for by MPEP 804(I)(B)(2). This interview summary is being treated as a response to my office action mailed October 20, 2005. Furthermore, the response filed September 19, 2005 has overcome the rejection of the claims under 35 USC 112, second paragraph and the rejection of the claims over Hanejko (USP 6,395,687) under 35 USC 102(e) has been withdrawn because the reference does not teach the ***wax derived from a two component mixture comprising the reaction product of a linear C₆₋₁₂ dicarboxylic acid and a diamine of the formula H₂N (CH₂)_n NH₂ wherein n is an integer of 2 to 6 and the molar ratio of the dicarboxylic acid and the diamine is from 0.97 to 1.0.*** Thus, claims 1-9 are allowable.

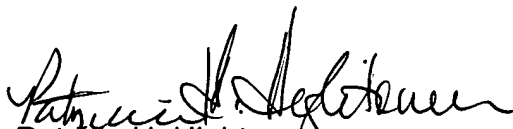

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
